ATTENTION

## Distinct people, each platform on its own scale

|                 |                                                                                                                                |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------|
| Bluesky         | Hidden: Not counted this week: Bluesky has no day between 6 and 12 July 2026 that AIDRAN counts, so there's no figure to show. |
| Hidden          | Reddit n 0 people; Hacker News n 0 people: each below the threshold of 20 people.                                              |
| Article sources | Not applicable: arXiv and Exa carry articles, which have no authors, so people aren't counted.                                 |

No platform counts people for this subject. As of 25 Sep 2026 13:30Z.

### The posts behind the figures

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.
