

READING · RELEASE 2026-W38

# Le Chat

Product · Mistral AI · 14–20 Sep 2026 · reading\_r\_402c7493227b, version 1

IN DEVELOPMENT

ATTENTION

## Distinct people, each platform on its own scale

|                                                                      |                                                                                                                           |
|----------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Hidden                                                               | Reddit n 0 people; Bluesky n 0 people; YouTube n 0 people; Hacker News n 0 people: each below the threshold of 20 people. |
| Article sources                                                      | Not applicable: arXiv, Google News and Exa carry articles, which have no authors, so people aren't counted.               |
| No platform counts people for this subject. As of 2 Oct 2026 04:00Z. |                                                                                                                           |

## THE PARTS NOT MEASURED YET

### Shown as absent, never as zero

#### Frames

NOT MEASURED YET

Frames aren't measured yet.

#### Register

NOT MEASURED YET

Register isn't measured yet.

## EVIDENCE

### The posts behind the figures

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.

## CONDITIONS

### What this reading rests on

|                |                                                                                                                                                                                   |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Window · as of | 14–20 Sep 2026 · 2 Oct 2026 04:00Z                                                                                                                                                |
| Days counted   | Reddit 7 of 7 (4 live, 3 from an archive); Bluesky 4 of 7 (live); YouTube 4 of 7 (live); Hacker News 7 of 7 (5 live, 2 from an archive); arXiv 7 of 7 (5 live, 2 from an archive) |
| Not counted    | Google News, no longer collected; Exa, collected only now and then                                                                                                                |
| Method         | 005c-series-v3.1                                                                                                                                                                  |
| Release        | 2026-W38, published                                                                                                                                                               |
| Version        | 1                                                                                                                                                                                 |

## CITATION

### How to cite this reading

|         |                                                                                                                                                                                                                   |
