

READING · RELEASE 2026-W01

QWQ

Model · Alibaba · 29 Dec 2025 – 4 Jan 2026 · reading r\_5fde7797ba35, version 5

IN DEVELOPMENT

ATTENTION

Distinct people, each platform on its own scale

|                 |                                                                                                                                                 |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Bluesky         | Hidden: Not counted this week: Bluesky has no day between 29 December 2025 and 4 January 2026 that AIDRAN counts, so there's no figure to show. |
| Hidden          | Reddit n 2 people; Hacker News n 0 people: each below the threshold of 20 people.                                                               |
| Article sources | Not applicable: arXiv and Google News carry articles, which have no authors, so people aren't counted.                                          |

No platform counts people for this subject. As of 25 Sep 2026 19:30Z.

THE PARTS NOT MEASURED YET

Shown as absent, never as zero

|          |                               |                                                                                                                                        |
|----------|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| Frames   | <div>▣ NOT MEASURED YET</div> | Frames aren't measured yet.                                                                                                            |
| Register | <div>▣ NOT MEASURED YET</div> | Register isn't measured yet.                                                                                                           |
| Change   | <div>▣ NOT APPLICABLE</div>   | No reading of the week before, between 22 and 28 December 2025, is stored under method version 005c-series-v3.1, so no change is shown |

EVIDENCE

The posts behind the figures

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.

CONDITIONS

What this reading rests on

|                |                                                                                                       |
|----------------|-------------------------------------------------------------------------------------------------------|
| Window · as of | 29 Dec 2025 – 4 Jan 2026 · 25 Sep 2026 19:30Z                                                         |
| Days counted   | Reddit 7 of 7 (from an archive); Hacker News 7 of 7 (from an archive); arXiv 7 of 7 (from an archive) |
| Not counted    | Bluesky, YouTube, Google News and Exa, not being collected yet                                        |
| Method         | 005c-series-v3.1                                                                                      |
| Release        | 2026-W01, published                                                                                   |
| Version        | 5 · replaces r_17cbc8b98514, which stays at its own link with its notice                              |
