▣ IN DEVELOPMENT

## ATTENTION

### Distinct people, each platform on its own scale

|                        |                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>Bluesky</b>         | Hidden: Not counted this week: Bluesky has no day between 22 and 28 June 2026 that AIDRAN counts, so there's no figure to show. |
| <b>Hidden</b>          | Reddit n 4 people; Hacker News n 0 people: each below the threshold of 20 people.                                               |
| <b>Article sources</b> | Not applicable: arXiv and Exa carry articles, which have no authors, so people aren't counted.                                  |

No platform counts people for this subject. As of 25 Sep 2026 13:30Z.

## THE PARTS NOT MEASURED YET

### Shown as absent, never as zero

|          |                    |                              |
|----------|--------------------|------------------------------|
| Frames   | □ NOT MEASURED YET | Frames aren't measured yet.  |
| Register | □ NOT MEASURED YET | Register isn't measured yet. |

## EVIDENCE

### The posts behind the figures

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.
