|                        |                                                                                                                                 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------|
| <b>Bluesky</b>         | Hidden: Not counted this week: Bluesky has no day between 15 and 21 June 2026 that AIDRAN counts, so there's no figure to show. |
| <b>Hidden</b>          | Reddit n 3 people; Hacker News n 0 people: each below the threshold of 20 people.                                               |
| <b>Article sources</b> | Not applicable: arXiv and Exa carry articles, which have no authors, so people aren't counted.                                  |

No platform counts people for this subject. As of 25 Sep 2026 13:30Z.
