IN DEVELOPMENT

ATTENTION

Distinct people, each platform on its own scale

|                 |                                                                                                                                |
|-----------------|--------------------------------------------------------------------------------------------------------------------------------|
| Bluesky         | Hidden: Not counted this week: Bluesky has no day between 6 and 12 July 2026 that AIDRAN counts, so there's no figure to show. |
| Hidden          | Reddit n 19 people; Hacker News n 0 people: each below the threshold of 20 people.                                             |
| Article sources | Not applicable: arXiv and Exa carry articles, which have no authors, so people aren't counted.                                 |

No platform counts people for this subject. As of 25 Sep 2026 13:30Z.
