IN DEVELOPMENT

**ATTENTION**

## Distinct people, each platform on its own scale

|                        |                                                                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Bluesky</b>         | Hidden: Not counted this week: Bluesky has no day between 29 December 2025 and 4 January 2026 that AIDRAN counts, so there's no figure to show. |
| <b>Hidden</b>          | Reddit n 16 people; Hacker News n 0 people: each below the threshold of 20 people.                                                              |
| <b>Article sources</b> | Not applicable: arXiv and Google News carry articles, which have no authors, so people aren't counted.                                          |

No platform counts people for this subject. As of 25 Sep 2026 19:30Z.

**THE PARTS NOT MEASURED YET****Shown as absent, never as zero**

|                 |                               |                                                                                                                                        |
|-----------------|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------|
| <b>Frames</b>   | <div>▣ NOT MEASURED YET</div> | Frames aren't measured yet.                                                                                                            |
| <b>Register</b> | <div>▣ NOT MEASURED YET</div> | Register isn't measured yet.                                                                                                           |
| <b>Change</b>   | <div>▣ NOT APPLICABLE</div>   | No reading of the week before, between 22 and 28 December 2025, is stored under method version 005c-series-v3.1, so no change is shown |

**EVIDENCE****The posts behind the figures**

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.
