ATTENTION

Distinct people, each platform on its own scale

Reddit		551 people · 0.26% of posts
Bluesky		112 people · 0.39% of posts
Hidden	YouTuben 10 people; Hacker News n 1 people: each below the threshold of 20 people.	
Article sources	Not applicable: arXiv, GoogleNews and Exa carry articles, which have no authors, so people aren't counted.	

People are distinct platform identities, counted on each platform separately and never added across platforms. Bars are scaled to each platform's first place in 2026-W38 (Reddit: Claude, 8,811; Bluesky: Claude, 895), so no two platforms share a scale. As of 2 Oct 2026 04:00Z.
