

READING · RELEASE 2026-W38

# Phi

Model · Microsoft AI · 14–20 Sep 2026 · reading\_r\_d35d942fcec4, version 1

IN DEVELOPMENT

ATTENTION

## Distinct people, each platform on its own scale

|        |                                                                                                                           |
|--------|---------------------------------------------------------------------------------------------------------------------------|
| Hidden | Reddit n 9 people; Bluesky n 2 people; YouTube n 1 people; Hacker News n 0 people: each below the threshold of 20 people. |
|--------|---------------------------------------------------------------------------------------------------------------------------|

|                 |                                                                                                             |
|-----------------|-------------------------------------------------------------------------------------------------------------|
| Article sources | Not applicable: arXiv, Google News and Exa carry articles, which have no authors, so people aren't counted. |
|-----------------|-------------------------------------------------------------------------------------------------------------|

No platform counts people for this subject. As of 2 Oct 2026 04:00Z.

## THE PARTS NOT MEASURED YET

### Shown as absent, never as zero

|        |                  |                             |
|--------|------------------|-----------------------------|
| Frames | NOT MEASURED YET | Frames aren't measured yet. |
|--------|------------------|-----------------------------|

|          |                  |                              |
|----------|------------------|------------------------------|
| Register | NOT MEASURED YET | Register isn't measured yet. |
|----------|------------------|------------------------------|

## EVIDENCE

### The posts behind the figures

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.

## CONDITIONS

### What this reading rests on

|                |                                                                                                                                                                                   |
|----------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Window · as of | 14–20 Sep 2026 · 2 Oct 2026 04:00Z                                                                                                                                                |
| Days counted   | Reddit 7 of 7 (4 live, 3 from an archive); Bluesky 4 of 7 (live); YouTube 4 of 7 (live); Hacker News 7 of 7 (5 live, 2 from an archive); arXiv 7 of 7 (5 live, 2 from an archive) |
| Not counted    | Google News, no longer collected; Exa, collected only now and then                                                                                                                |
| Method         | 005c-series-v3.1                                                                                                                                                                  |
| Release        | 2026-W38, published                                                                                                                                                               |
| Version        | 1                                                                                                                                                                                 |

## CITATION

### How to cite this reading
