IN DEVELOPMENT

ATTENTION

## Distinct people, each platform on its own scale

|                 |                                                                                                                                          |
|-----------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Bluesky         | Hidden: Not counted this week: Bluesky has no day between 23 February and 1 March 2026 that AIDRAN counts, so there's no figure to show. |
| Hidden          | Reddit n 0 people; Hacker News n 0 people: each below the threshold of 20 people.                                                        |
| Article sources | Not applicable: arXiv, Google News and Exa carry articles, which have no authors, so people aren't counted.                              |

No platform counts people for this subject. As of 25 Sep 2026 19:30Z.
