IN DEVELOPMENT

ATTENTION

## Distinct people, each platform on its own scale

|                 |                                                                                                                               |
|-----------------|-------------------------------------------------------------------------------------------------------------------------------|
| Bluesky         | Hidden: Not counted this week: Bluesky has no day between 1 and 7 June 2026 that AIDRAN counts, so there's no figure to show. |
| Hidden          | Reddit n 0 people; Hacker News n 0 people: each below the threshold of 20 people.                                             |
| Article sources | Not applicable: arXiv and Exa carry articles, which have no authors, so people aren't counted.                                |

No platform counts people for this subject. As of 25 Sep 2026 13:30Z.

**THE PARTS NOT MEASURED YET****Shown as absent, never as zero**

|                 |                               |                                                                                           |
|-----------------|-------------------------------|-------------------------------------------------------------------------------------------|
| <b>Frames</b>   | <div>▣ NOT MEASURED YET</div> | Frames aren't measured yet.                                                               |
| <b>Register</b> | <div>▣ NOT MEASURED YET</div> | Register isn't measured yet.                                                              |
| <b>Change</b>   | <div>▣ NOT APPLICABLE</div>   | The week before, release 2026-W22, was read with different filters, so no change is shown |

**EVIDENCE****The posts behind the figures**

Up to 10 posts behind each figure with a value, one frozen sample per figure and per platform. The quotes are on the reading page, without authors, so they aren't printed here.
