## Distinct people, each platform on its own scale

|                 |                                                                                                                                   |
|-----------------|-----------------------------------------------------------------------------------------------------------------------------------|
| Bluesky         | Hidden: Not counted this week: Bluesky has no day between 5 and 11 January 2026 that AIDRAN counts, so there's no figure to show. |
| Hidden          | Reddit n 11 people; Hacker News n 0 people: each below the threshold of 20 people.                                                |
| Article sources | Not applicable: arXiv and Google News carry articles, which have no authors, so people aren't counted.                            |

No platform counts people for this subject. As of 25 Sep 2026 19:30Z.
